

COUNCIL IS NOT ENTHUSIASTIC TO PAY SOME BILLS

Thinks Dr. Scott Should Consult Them Before Contracting Debts At Hospital

Whether the council should or should not pay for alterations and improvements made at the hospital under the direction of Dr. Scott the superintendent, was the most exciting outcrop of debate at the regular meeting of Monday night. The matter was brought to the notice of the council in the form of a bill presented by Dr. Scott for work done at the hospital by Harry Holmes. This work appeared to be necessary and permanent according to Dr. Scott's views, but some of the aldermen were of the opinion that should another doctor take over the hospital, he might consider the improvements made quite unnecessary and get them out of the expense of the council again.

Alderman Radford who is chairman of the hospital committee was quite up on his feet on this matter. He did not think Dr. Scott had any right to ask the council to pay for these things. He did not think the alterations necessary, and said if the council allowed the bill to go through, then the superintendent might be fixing up things indefinitely and forever increasing bills to the council. As far as he was concerned he was not in favor of paying the bill.

Alderman Connolly considered it a very poor time after the improvements were made, to consult the council about them and present the bill. "The improvements," he said, "might be necessary, but then other things are necessary too, and we can't have them." He thought the bill should be submitted by the council but that the superintendent should be notified that improvements proposed in the future should be done at the recommendation of the council.

Major Travis thought it impossible to say that the improvements were essential; and that since Dr. Scott had assumed the debt without any authority whatever, from the council it should be turned down. Connolly, however, thought it would be bad business to turn it down altogether, but rather hold it in abeyance and reimburse Dr. Scott after he gives up the hospital.

Alderman Struthers had voted against paying the bill at all, and made a motion as follows:

Struthers—Radford—That the account be not paid and that Dr. Scott be notified that any improvements he makes in future be at his own risk.

An amendment was made by Torgau and seconded by Mortensen that the account be accepted and paid by the town at the end of the year.

The amendment was carried, Struthers, Radford and the mayor, however, declaring themselves in favor of the original motion.

Dr. Scott also asked that a cement floor be put in the hospital at a cost of \$25, and Struthers wanted a motion passed giving the committee power to act when funds were available. This found no seconder, and an amendment that the matter be left over to some future date carried.

Alderman Connolly under the order of new business, made a motion which found no seconder, that the town engineer be required to call up the pumping station twice a day to ascertain if everything was all right. It was voted that Brennan had run out of coal and that

TESS OF THE STORM COUNTRY

Which Will Be Produced At The Gem Theatre On Tuesday March 27th. Not moving pictures.

The town engineer had ignored telephone calls drawing attention to the shortage. Instances were cited where some three or four calls had been completely ignored by the engineer.

Major Travis remarked that if Brennan is a practical man, it is at fault for allowing himself to run out of coal.

Alderman Skerritt—"If we have a town engineer and have to pass motions to have him attend to the details of his business, then what's the use having an engineer at all?"

However, it was proposed that the waterworks committee, the town engineer and Mr. Brennan be got together and the master "breath out" of the situation.

Major Travis was appointed to act as mediator at the side of town.

A communication was received from Mr. MacIntosh, the divisional superintendent of the C.P.R. at Medicine Hat, asking the town to submit its conditions for a new water contract, and it was.

Moved by Skerritt and seconded by Torgau, "that he be notified that the council had decided on the rate of 10cts per 1000 gallons, with a minimum of 100,000 gallons.

Applications were made by Mrs. MacGregor, A. Mortensen and Thos. Howard for the rental of the Industrial site. Mrs. MacGregor offered \$1 per acre, Mortensen \$65 per year and Thos. Howard \$1 per acre.

It was moved by Torgau, seconded by Skerritt that the application of Mrs. Mortensen be accepted, the rental to be paid in advance each year. This contract totalled up much more than the amount of the other offers.

Reports of the police dept. and the Finance Committee were accepted, and the special report of the delegation to Edmonton re the Monroe subdivision was accepted.

The report was thoroughly satisfactory in respect and promised the co-operation of the department of Municipal Affairs and the Utilities Commission in securing the cancellation of the subdivision.

It was moved by Golden and seconded by Skerritt, that Dr. Scott be notified to put no more improvements on the hospital at the town's expense without first referring the same to the council.

Moved by Connolly, seconded by Skerritt, that no committee be empowered to expend any of their estimates without first referring same to the council.

Official notice has been given in the Alberta Gazette of the appointment of Albert Helmer of Calgary and Thomas Gilbert McCoy of Edmonton as commissioners for taking affidavits, and of William Bauman of Bassano as broad reader.

ARRANGING FOR FARM LABOR IN THIS PROVINCE

Agents For Both Dominion And Provincial Governments Are Canvassing States

That the Dominion government will do all in its power to alleviate any shortage of labor in and around Bassano for the spring seeding, is evidenced by the fact that John S. Major has been communicated with from Ottawa with view to appointing an agent for the government to canvass the Western States to secure labor.

The agitation started some time ago when Mr. Major, realizing the shortage of labor in these parts, owing to the large quota of enlisted men, called the attention of the Department of the Interior to the most pressing necessity in order to secure the maximum production of the land under cultivation around here. The matter culminated on Saturday last when Mr. Major was communicated with by telegram, asking him to appoint an agent for the job to act in conjunction with other agents from other parts of Alberta.

Mr. Major immediately got busy, and Jim O'Brien, his chosen Comptroller, having started out on Wednesday night, and about whom it will be somewhere down in the Western States gathering up laborers for farmers around the town of Bassano.

The question of the supply of farm labor for spring seeding has engaged the attention of all serious-minded persons who have been here during the coming of Mr. Major's crop in Western Alberta.

Major O'Brien, the Provincial department of Agriculture has had agents working in various parts of the United States with a view to getting farm labor. The principal commissioners, Mr. Daly, and his assistant, and his assistant, Mr. Day, have both been travelling through the United States endeavoring to secure information as to the possible supply and where the men may be found. Recently four agents from the Provincial department, and have been instructed to work in conjunction with the federal immigration offices in certain States. These men are giving first-hand information as to the necessary requirements for farm labor.

Major O'Brien's report indicates that the necessary supply of labor will be found.

The majority of the help for Alberta will come from the States of Washington, Oregon, Idaho, the Dakotas and Canada. These will also be some, some from through the Paul and Kansas City.

R. B. Bennett, director of National Service, visited the Province a few days ago for the purpose of rendering what assistance might be necessary in this regard.

Major O'Brien arranged with Mr. Bennett to have a representative attend a meeting to be held in Winnipeg where the question of Western farm labor would be discussed.

Major O'Brien was present on Thursday, March 8th. These present included representatives of the three provincial governments of Manitoba, Alberta, and Saskatchewan, the three railway companies, the federal immigration service and a committee of businessmen from Winnipeg.

At this meeting it was agreed that the Dominion government would share equally with the provincial governments any expenses there might be in securing labor.

The men agreed to place an additional number of agents in the United States equal to the number appointed by the Province.

The men will be at the present time twelve men will be working for the province of Alberta.

The Dominion department of the Interior also has persons working as farm laborers in Canada during the present year to count as homestead duty, the period during which he is employed at farm work.

The federal government has offices in the United States to each man who wishes that same, a certificate, stating that he will be exempt from the performance of military duty while in Canada and will be allowed to return to the

"TESS" IS COMING

"Tess of the Storm Country" will be on at the Gem Theatre on Tuesday night March 27. The play is a dramatization of the book of that name by Grace Miller White, one of the best sellers. The story is of Tessie Skinner, a girl without education, who lives with her father in a poor family, and the young girl rises from her low estate to take her place in society as his wife.

Tess's father is accused of murder and for that supposed crime is sentenced to prison. Tess then becomes uninterested.

Graves, a young, naive, uneducated girl, is the suppressor of the agitation, takes an interest in her and saves her from the unwholesome influences of Ben Letts. "Tess," the minister's sister, becomes the mother of a child, and the girl is wedded, and Tess, to protect her, gives the impression that the child belongs to her.

As the childless minister is told

of the death of his father, Tess, unable to bear the thought, goes to him and tells him as her, then steals Tess.

Tess is a lovable character, winsome and bright. Miss Hale Baker is Tess in ideal, as she has both the youth and the beauty that so necessarily with

the land under cultivation around here. The matter culminated on Saturday last when Mr. Major was communicated with by telegram, asking him to appoint an agent for the job to act in conjunction with other agents from other parts of Alberta.

Mr. Major immediately got busy, and Jim O'Brien, his chosen Comptroller, having started out on Wednesday night, and about whom it will be somewhere down in the Western States gathering up laborers for farmers around the town of Bassano.

The question of the supply of farm labor for spring seeding has engaged the attention of all serious-minded persons who have been here during the coming of Mr. Major's crop in Western Alberta.

BUXTON CLOSES UP PATRIOTIC PUNCH BOARD

He May Allow Dances For Patriotic Purposes When He Isn't Too Dyspeptic

The punch board which nestled in Charlie Cole's pool room, and towards which the boys were contributing 10 cents a piece for the purpose of the tobacco fund for the boys at the front, has been removed and closed up by order of Constable Buxton of the Provincial police. The grounds taken for this action is probably that the board was purely and simply a gambling device.

This action on the part of the Provincial police came very nearly precipitating a riot. Constable Buxton, who has been here since the opening of the opinion that since the boys were practically donating 10 cents a piece for patriotic purposes, and that should a case be made out this and the pool room authorities come before him for running a gambling device, he would have to decide against them. And this he concludes would be putting him in the light of a Pro-German.

On the same principle Mr. Mordecai is of the opinion that it will not in future be safe for church raffles, raffles for patriotic or any other purpose to be held while Constable Buxton is on the job. Whether he will allow dances for patriotic purposes has not yet been learned.

WHERE TO IRRIGATE

Captain F. H. Peters of the Executive Committee of the Western Canada Irrigation Association, and the acting secretary of the Service Board were communicating its value of recent literature to Professor Stephen Leacock, entitled "National Organization for War" in this booklet, Dr. Leacock makes an analysis of the situation in the West and national service. Supporting his analysis is a list of organizations which the same company which placed the same in the same theatre in Calgary three weeks ago to record breaking business. Reserve seats at \$1.00.

One of the most valuable of recent literature contributions to the cause is a pamphlet by Jim O'Brien, his chosen Comptroller, having started out on Wednesday night, and about whom it will be somewhere down in the Western States gathering up laborers for farmers around the town of Bassano.

The question of the supply of farm labor for spring seeding has engaged the attention of all serious-minded persons who have been here during the coming of Mr. Major's crop in Western Alberta.

Major O'Brien, the Provincial department of Agriculture has had agents working in various parts of the United States with a view to getting farm labor. The principal commissioners, Mr. Daly, and his assistant, and his assistant, Mr. Day, have both been travelling through the United States endeavoring to secure information as to the possible supply and where the men may be found.

The majority of the help for Alberta will come from the States of Washington, Oregon, Idaho, the Dakotas and Canada. These will also be some, some from through the Paul and Kansas City.

Captain Peters, being called upon by the chair, insisted on the use procedure and emphasized the need of local attendance and local suckers. He believed the local attendance could be secured largely by an organized effort to use the motor cars in the country for the town hall wife, George Stewart, president of the Cypress Hills Water Users' Association.

The following organization was affected: Chairman of Local Board of Control, P. Chevalier, mayor of Maple Creek; Vice-chairman, D. J. Wylie, member of Saskatchewan legislature; G. S. Hickey, president of the Merchant's Bank, Maple Creek.

The following chairmen of committees were also associated with the understanding that each chairman would enlist such assistance as he found desirable: Hotels and Accommodation, Mat. Publicity, W. J. Redmond, Editor of The Maple Creek News.

Reception, John Dixon.

Finance, C. H. Steddale.

Entertainment, R. H. Hodson.

Decorations, G. R. Williamson.

Mr. F. A. Auld, deputy Minister of Agriculture, Regina, was appointed an office member of the Local Board of Control.

The following organization has arranged for offices to be opened at Edmonton, Calgary and Lethbridge. Agents of the Department will be located in these points and be pleased to receive applications from persons desiring farms or farms, requiring farm help.

On the strength of these agents, the railway companies have agreed to give a rate of one mile from the point of origin to the boundary.

These will be located on the strength of the distance which is to be paid.

These rates will be in effect on the 20th of March. Any

one wishing to pay for farm help may write to the following addresses:

Edmonton, Alberta Department of Agriculture, Board of Trade Building, Lethbridge.

Agassiz, Alberta Department of Agriculture, Dairy Commissioner's Office, Calgary.

Chief Publicity Commissioner, Alberta Department of Agriculture, Edmonton.

The date selected for the convention is August 1, 2 and 3. The Maple Creek fair will be in progress on August 1 and 2, and on those days it is not proposed to have the formal sessions of the convention, so as to enable delegates to visit the fair.

A. S. Dawson, chief engineer of the Natural Resources Department of the C.P.R., accompanied by McNaughton of Brooks, were in town today in connection with the work going on at the dam.

Fred Manix left this week for Iowa to engage in contract grading work.

JAS. JOHNSTON

ENGINEERS WANTED

The work of the Canadian Engineers in France is largely for the purpose of conserving life and reducing casualties. For that reason it is a particularly attractive branch of the Service for many men. For instance, a result of their experience in this war, trench layout and construction has been considerably changed. To localize the effect of a direct hit on a portion of a front line trench, the size of which depends on the width of the trench, temporary roads are constructed up to front line trenches, which roads relieve main roads which are continually shelled by the enemy. It takes some time for the enemy to locate these temporary roads.

Canadian Engineers is a branch
for a view for tradesmen and others
qualified, who want to do their part in

this great war, and at the same time
their experience and training, to the
greatest advantage. As a Sepper in the
Engineers, tradesmen will handle work-
ing parties in their trade or in some other
engineering work.

Men who will join up for the "greatest
of all" work of conserving our fighting
blood can apply to:

Capt. G. F. Peters, Officer Commanding,
Drafts, Divisional Engineers, 215th Regt.

Ave. East, Calgary, Alta.

F. M. Hinckleman and A. J.
Burley of Seattle, Washington, have

purchased the Murchison farm.

Quite a large number of settlers
from the States came in this week
with their effects, and purchased
land around Bassano.

LOCAL AND PERSONAL

John Weaver, hobbling around
on a cane, was in town on Saturday
night looking after his valuable per-
sonal property here.

Russell Brown, who has been
spending the winter months in
Montreal, Toronto and other Eastern
cities, returned home on Saturday
night.

J. H. Alstott, one of the Colorado
Colony farmers at Gem, has taken
a farm at Cragmyle.

Mrs. J. L. Torgau returned home
on Saturday from an extended visit
with friends and relatives in Denver,
Colorado.

A. A. Lundy, a licensed auction-
eer, was in town on Monday last.
He has inserted a business card in
The Mail, and guarantees to give
satisfaction to all who entrust their
sales to him.

Jas. R. Hendry, who has been up
north looking over his farming in-
terests, returned home on Saturday
night.

J. L. Torgau announces the com-
ing of the play "Tess of the Storm
Country" on Tuesday next. Previous
to the rising of the curtain that night
"The Iron Claw" will be shown for the
benefit of those who miss the Monday show. The pic-
tures will commence sharp at 8
o'clock before the curtain rises for
the play.

A meeting of all those interested
in baseball for the coming season
will be held in the room above the
Union bank on Friday night.

Rev. W. S. Brooks has been pre-
paring all small cedar cedar
paintings to be sold in aid of the
Red Cross and the Patriotic Fund,
"A Street in Eyemouth, Scotland" by
J. R. Miller; and "Wickham
Bridge," by E. Parkman. Both
men are artists of distinction. The
pictures have been framed and can
be seen at McKeen & Berry's store
who have them for sale.

Rev. W. S. Brooks' subject on
Sunday night will be "A Question of
Safety."
